Pre-Boot Camp Course

Overview

Hi there and welcome to the Project Access Bootcamp Preparation Course! As we explained in your personal consultation session, you are expected to prepare some part of Your Way to top universities before attending the bootcamp. This is to ensure that you can make the most of your bootcamp experience and really fine-tune your application.

Please make sure to read all the information provided on here and complete all tasks by the required deadline. Your participation at the bootcamp is contingent on completing this online preparation course and handing in all assignments in time.

If you have any questions about this course, please email bootcamp@projectaccess.org

Image

Before proceeding, one word of encouragement: You don't need to be super-human to apply to a top university! You might know our target universities from film and media, featuring nobel laureates and famous people. However, it's important to keep in mind that most people who attend top universities aren't like that. They're not all geniuses like Stephen Hawking. In fact, most people are simply passionate about their goals and ready to work hard. If you've been given access to this site, we at Project Access think you have what it takes to be successful! All that's required of you now is to dedicate yourself to this goal and work hard. And we're here to support you along Your Way.

How we support you before the bootcamp

We know that you're busy. This is why you're not alone on Your Way to top universities. Before embarking on Your Way, please make sure you've been assigned a mentor by Project Access. Please fill in this form to let us know which mentor you've been allocated, or, if you haven't been allocated a mentor yet, to let us know about this.

- Your mentor is there for you the entire way.
- This online course is here to guide you, step by step, through the beginning phases of Your Way to top universities.
- The Project Access Bootcamp team is here to help you too. You can reach us at bootcamp@projectaccess.org or, in urgent cases, on +43 664 30 77470 or +43 660 1574300.
- Before the bootcamp, we will also put you in touch with other bootcamp candidates. This is a stellar resource for helping each other out on a peer-to-peer basis.

Welcome to Module 1!

Overview

Level 1: Why do you want to apply to a top university?

-This level is all about you! Why do you want to apply to a top university? Motivation can vary widely for different people – from wanting to study a specific subject, over career ambitions, to interests to learn from specific academics.

- Your motivation might change over time, but getting clear on why you want to apply is important (a) for your own dedication and (b) as a grounding for a successful application.

Result: I know why you want to apply for top universities and what you expect from this.
